

Mr. Croquette

THE CROQUETTE MASTERS

WWW.MRCROQUETTE.GR

We are Mr. Croquette. Since 1987.

We are a Greek family business that, **since 1987**, has focused on a very specific goal: taking the flavors we love and transforming them into products that earn a place on every menu. With nearly **four decades of experience** and absolute expertise in croquettes, we offer Greek flavors on an industrial scale, characterized by professional organization and a modern production mindset.

We are not "a little bit of everything."
We are Mr. Croquette.

Our daily operations, know-how, and evolution are dedicated to one field: croquettes & finger food. This is where we test, improve, and create, ensuring every product has character, a clear taste identity, and a reason to be on the plate.

To support market growth and demands, we constantly invest in mechanical equipment and facilities. At the same time, we choose more responsible operational solutions: we have installed a 110 kW photovoltaic system on our roof, reducing our energy footprint.

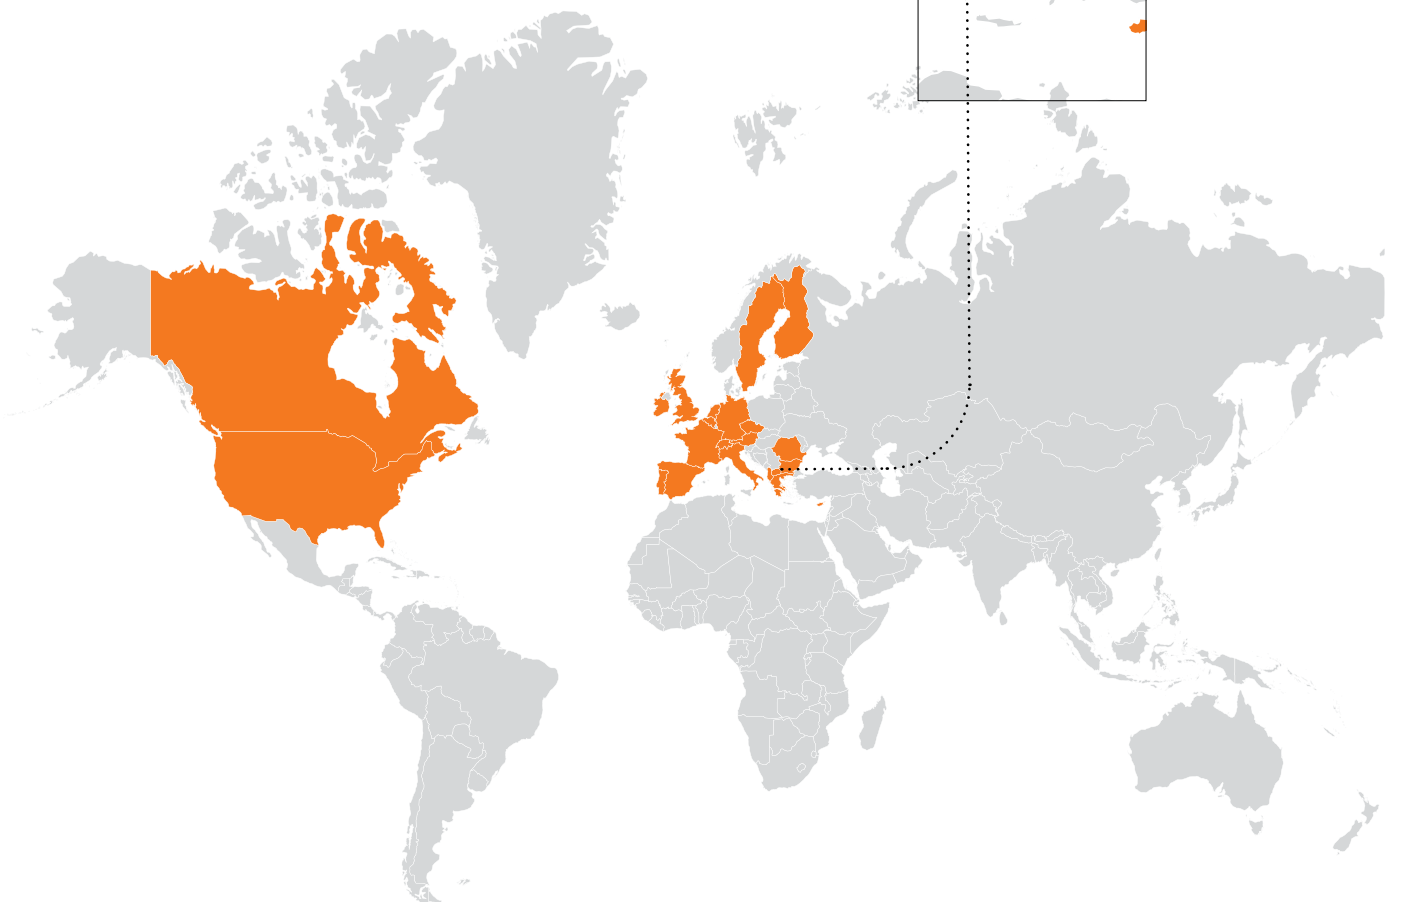

WWW.MRCROQUETTE.GR

this is us.

Greek family production —
Exclusively specializing in croquettes and modern finger food.

We also have our own R&D department, where new ideas and products are born. We monitor catering trends, listen to our partners, and convert market needs into modern proposals — from classic Greek flavors to "street" options for sharing and finger food.

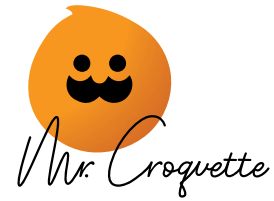

Our flavors travel: we are developing an export presence in selected international markets, carrying Greek character and Mediterranean "DNA" beyond borders.

CHEESE CROQUETTES

SEMI-HARD CHEESE CROQUETTES

Rich filling of semi-hard cheeses with a full, balanced taste in every bite.

Crunchy breading & creamy interior for a delightful contrast of textures and consistent results when baking / frying.

Ideal for HoReCa:

fast preparation, easy serving, and high portion yield.

all time
